

You need an oil industry partner **you can trust.**

Your **own** convenient **oil** supplier in **Obz.**

You may not always have a technical question. It might only be once or twice a year. But when you do, you need a technical partner you can turn to, who has experience and knowledge and who is able to provide you with the correct answers and provide you with the correct products.

A technical partner you can trust, to keep you informed of the latest developments, as they happen. A business partner that helps you add significant value to your business.

- I have over 25 years experience in the oil industry.
- I have extensive knowledge on all oil brands and product ranges and I know the advantages and disadvantages of each.
- I have established and import my own range of unique high quality products that meet the highest standards at competitive prices.
- I make my customers lives easier and less stressful.
- I have extensive knowledge on all facets of industrial, automotive and high tech lubrication.
- I have saved my customers millions of rands by providing sound technical advice, over many years.
- I have not been asked a question, for the past 15 years at least, relative to my industry, that I could not answer immediately.
